Application for financial support

Llangywer Community Council recognizes and supports the valuable contribution made by many voluntary groups and associations pertaining to sports, arts, culture, social care, services for young people, the disabled and older people, and many other groups which contribute to the well-being of the community. Our aim when making financial contributions is to help improve a range of local services and activities.

The Council will consider making financial contributions to not-for-profit community associations whose members and scope of activities are of benefit to the residents of Llangywer.

The budget for grants is a limited one and the Council will allocate funds in March of each year. However, the Council may consider an extraordinary request at other times if the applicant is able to indicate special circumstances and if the Council budget allows a contribution to be made.

A copy of the most recent statement of accounts is required with each application (including details of accounts held in reserves or savings).

If successful, we expect you to tell your members that the Community Council has given you support, and to mention our support in any press release.

Please use the form below for your application:
